Problem extending my wifi signal.

2020/02/14

I bought a Tenda N301 router to extend my wifi signal since it doesn't reach my room. I want to locate the router in a central areas, but I can't do that since I needs to be connected to the main modem (the one that provides internet signal) via ethernet. Can I connect the N301 to the main router without cables so I can move it freely?
