Getting low download and high upload speeds WiFi adapter
2020/02/15

I just bought a usb 3.0 PCIe card for my pc so that I could use the BrosTrend ac1200 WiFi adapter, but when I installed everything I get low download speeds and high upload. I get 300 megabits p/s on the Ethernet, but I am taking a WiFi hacking class on Udemy that needs WiFi adapter. When I use the REALTEKK wireless lan utility that came with it it says in the status that the usb hub is 3.0 but the usb mode is 2.1. How do I make it run faster? I also get 200 mbps on my iPhone from the exact same spot so I know it isn't the router. Thank you.
